

EVENTS WERE PLENTIFUL THIS SUMMER AT PREMIER

Premier kicked off the summer early with a dinner event at Crop Bistro and Bar in recognition and appreciation for the brokers in the commercial real estate industry who assisted Premier in the completion of deals in the last two years. This event was hosted in the historic Crop Vault and the recognition of these individuals was much earned.

Premier was bustling in June with two events. The first was an Investor Event held at the Western Reserve Historical Society's Crawford Auto-Aviation Museum Gallery. Our investment partners are an integral part of our success. The second event in June was a Contractor Appreciation Golf Outing held at Westfield Country Club. With the amount of time and energy these contractors have provided to help with Premier's successful year, this event was very much deserved.

In July, Premier continued their sponsorship by holding a Broker Appreciation Golf Outing and invited their extensive list of partners in the brokerage community to play at the Kirtland Country Club. The day was spectacular in weather, but it was determined most of us are not as spectacular on the course!

Finally, Premier closed the summer with the highlighted event at The Bridgestone Invitational at Firestone Country Club. Here, Premier hosted key clients, investors and partners in a tent on the 16th hole to view the "premier" talent of golf.

Premier Development Partners and Premier Commercial Realty have been blessed to be a part of the Cleveland commercial real estate and construction industry for 8 years and enjoyed sharing our success with our partners of every industry. We are already looking forward to the summer of 2016!
