

## Pool Dehumidification: Comfort Suites, Hartville

Pool units can be challenging due to their harsh environment and dehumidification requirements. Pressure, temperature and humidity control are essential in creating a comfortable indoor pool environment with operating cost control.

### AAON offers the most economical HVAC system for pool environments

The application of these kinds of pool dehumidification systems goes far beyond hotels. We can also accommodate Residential, YMCA & YWCA, Recreation Center, School, Resort and Assisted Living facilities.

With equipment tailored to your exact needs, AAON offers a level of specification unmatched in the industry. Pool units can be challenging due to moisture damage; that's why humidity control is so important with any indoor pool unit. Unlike

conventional ventilation systems, AAON's unique unit design is available with an energy recovery wheel to capture and re-use energy, resulting in optimal environmental control, high energy efficiency and low operating cost.

***We also have pool units from 2-230 tons in packaged or split system arrangements.***
