

Newsletter Quarter 4

Proven Process. Proven Partnerships. Premier Difference.

The quality and success of our past projects have created long-term partners with several of the organizations with whom we work. As these organizations experience growth, they choose to partner with Premier again as their real estate needs change. We fulfill their requests by expanding existing buildings, finding new spaces for them to lease, and building new facilities across the country.

Our partner Arhaus is one organization that is experiencing substantial growth. We partnered with them in 2015 to build a new 775,000 square foot corporate headquarters and distribution center in Boston Heights. This year we broke ground on two projects for them: a 229,500 square foot expansion at their facility in Boston Heights and a new 498,000 square foot distribution center in Conover, North Carolina.

Premier partners with our clients in Northeast Ohio and beyond. If you are looking at expanding, or have growth opportunities beyond Cleveland, we would be honored to partner with you to strategize and make those goals a reality.

CURRENT PROJECTS

Infinium Wall Systems

This building in Strongsville will serve as the new global headquarters for Infinium Wall Systems. This 130,000 square foot space nearly triples their available space and includes 100,000 SF manufacturing facility, a 6,000 SF design studio and 26,000 SF of corporate offices.

Arhaus | Conover, NC

This 498,000 square foot building in Conover, North Carolina will be the second Arhaus distribution center. This strategic site will allow them to connect with their southern markets more efficiently.

PARTNERS IN OUR COMMUNITY

Being a partner in our community through volunteering is one way the staff lives out Premier's mission to improve the landscape of Northeast Ohio and beyond. For our 2021 Day of Philanthropy, the Premier staff spent the day at Hiram House, a Cleveland organization whose goal is to enrich the lives of children through camping. We had a great time working together on tasks like filling candy bags, painting benches, staining decks, moving hay bales, and building an axe throwing range!

STRENGTHENING OUR TEAM

Premier is excited to welcome Lisa Burda to the team! Lisa is our receptionist, joining the team in late September 2021. She brings over 25 years of experience as an Administrative Assistant and 12 years in customer service.
